

ETFA2008_SS_03

Invitation to the Special Session on Embedded Systems Security & Dependability at the 13th IEEE International Conference on Emerging Technologies and Factory Automation

September 15-18, 2008, Hamburg/ Germany
Conference web site: <http://www.etfa2008.org>

The Special Session on Embedded Systems Security is being organized to address research issues in the technical area of security and dependability in embedded systems. Session papers should address any issue of embedded systems security and dependability, including (but not limited to):

- Secure, dependable embedded systems
- Security processors and co-processors
- Novel cryptographic attacks and countermeasures
- Analysis and evaluation of security and dependability in embedded systems
- Dependable embedded systems architecture – Hardware and software issues
- Secure, dependable distributed embedded systems
- Secure, dependable embedded applications and services

Authors' Schedule:

Authors should contact the Special Session Organizers as soon as possible

Deadline for submission: **April 30, 2008**
Notification of papers acceptance: **June 1, 2008**
Final manuscripts due: **July 1, 2008**

Submission of Papers:

Papers are to be submitted electronically. For further details please consult the conference web pages.

Session Organizers:

D. Serpanos, Univ. of Patras & ISI, Greece (serpanos@ece.upatras.gr)
W. Wolf, Georgia Tech, USA (wolf@ece.gatech.edu)
